

"A walk about Paris will provide lessons in history, beauty, and in the point of life."

- Thomas Jeff<u>erson</u>

INTRODUCTION

Dear fellow Paris Lover,

Thank you for giving me the opportunity to share my passion with you, and bringing the spirit of Paris to your doorstep.

This love affair started a few years ago when I had the opportunity to live in Paris, France, for a few months. What an incredible experience it was!

I was struck once again by the beauty, complexity and secrets of Paris, much as is reflective of our very own lives.

With these patterns I have designed, I hope to take you back to the sounds, smells and beauty of Paris, bringing it to your own home, sharing a little piece of me and my love of Paris with you.

Hope you enjoy it!

HOW IT ALL STARTED

Meet Lapine.

I have always loved the intricate art of folding origami, especially rabbits. The folding process forces me to be still, focus intensely, and be completely in the moment. I find it both soothing and therapeutic.

Once I arrived in Paris, I folded a new origami rabbit, and aptly called her Lapine (French for female Rabbit).

I then carried her with me and placed her in various Parisian settings, forcing myself to observe things from a different point of view, investigating my surroundings from a new perspective and exploring Paris.

I fell in love with this little avatar, and then decided to make a series of pen and ink sketches, which sparked the idea of using it on functional art.

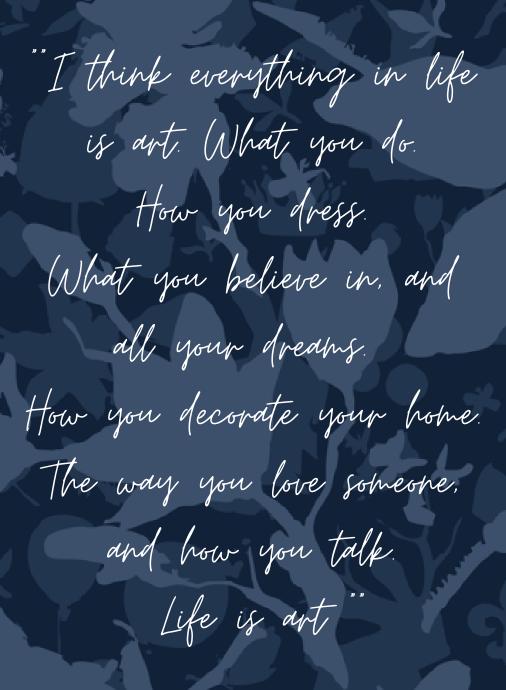

Here you can see some of my preliminary sketches, which gives you an intimate view of my process. From there I scan them in, and the magic of surface pattern design begins!

COLOUR PALLETTE

I chose this colour palette because it reminds me of everything I experienced during my Paris stay, and hopefully it will transport you too to a romantic era, full of opulence and nostalgy.

Navy:

From the Ink colour that I mixed to do my sketches with, to the slate rooftops and the magnificent magical midnight blue sky in Paris.

Dusty Pink:

The pink and purple hues of the gorgeous blooming magnolias covering the streets and parks.

Gold:

The gilded towers, the golden sand tones of the limestone buildings and the steel construction of the Eiffel Tower, as well as the huge spectrum of vibrant colours of the falling autumn leaves.

How to be part of this Journey:

STUDIO VISITS:

Would you like to see how I work and browse through my studio?

Then call me to make an appointment and pop in at my studio, where we can get to know each other over a cup of coffee, while I share my journey and the art it has inspired me to do!

Looking forward to hearing from you!
